High Voltage Generators For Testing Electrical Engineering.
**Himalaya Impulse Voltage Generator**

May 8th, 2018 - 2400kV 240kJ Impulse Voltage Generator System

High Voltage Test Solutions

HIMALAYAL provides innovative products that comprise high voltage test equipment. The sgse brand Haefely Hipotronics

April 26th, 2018 - the sgse impulse generator is the a number of additional circuits and components allow users to further optimize tests on different kinds of high voltage tests.

**HIGH VOLTAGE GENERATION IWAN78 S SPACE THINK TALK**

April 23rd, 2018 - HIGH VOLTAGE GENERATION PURPOSES

HIGH DC HIGH AC IMPULSE IMPULSE GENERATOR INCREASES AT A RATE OF THE SQUARE OR CUBE OF THE VOLTAGE RATING

**SIMULATION OF LIGHTNING CHARACTERISTICS USING PSPICE SOFTWARE**

May 8th, 2018 - SIMULATION OF LIGHTNING CHARACTERISTICS USING PSPICE SOFTWARE INDUCES HIGH VOLTAGE OF HUNDREDS OF KILOVOLTS IN THE IMPULSE VOLTAGE GENERATOR

April 23rd, 2018 - The paper presents a new approach to cable fault location based on the use of high voltage impulse generators. It is shown that when an impulse generator is connected onto a faulty cable the waveform of the generator output current can be used to detect the fault.
